Work

Infield Design

Front End Developer

6.2013 - present

infielddesign.com

Javascript

Planned and developed a D3.js application through multiple phases, including the implementation of AJAX to allow users to edit content through the front end.

Filtering based on content meta data

Form validation

CSS & HTML

Developed cross-browser-compatible styling with IE 8+ support

Implemented responsive design patterns for both new and olds installations of CQ5, Magento and Typo 3

Assisted in development of layouts, templates, partials and navigation menus for fresh Typo 3 CMS installations

Translated Photoshop designs into HTML and CSS

Intag Newspaper Archive

Front End Developer

10.2013

intagnewspaper.com

Javascript

Developed hash routing to filter content based on its meta data

Python

Set up initial Flask structure

CSS & HTML

Designed and developed site interface while using Jinja 2 for templates

Skills

Languages & Tools

Proficient

Javascript, CSS, HTML, D3.js, jQuery, Photoshop

Familiar

Git, Backbone.js, Python, PHP, Illustrator

Interests

Music

My favorite instrument is the bass, though I have also in the past learned to play the euphonium, the trombone, the trumpet, the clarinet, the drums and the piano.

Outdoors

Hiking, biking and swimming. Currently learning to play underwater hockey and to surf.
